Water Survey Results - 1

Is there adequate water available near to your plot

96 responses

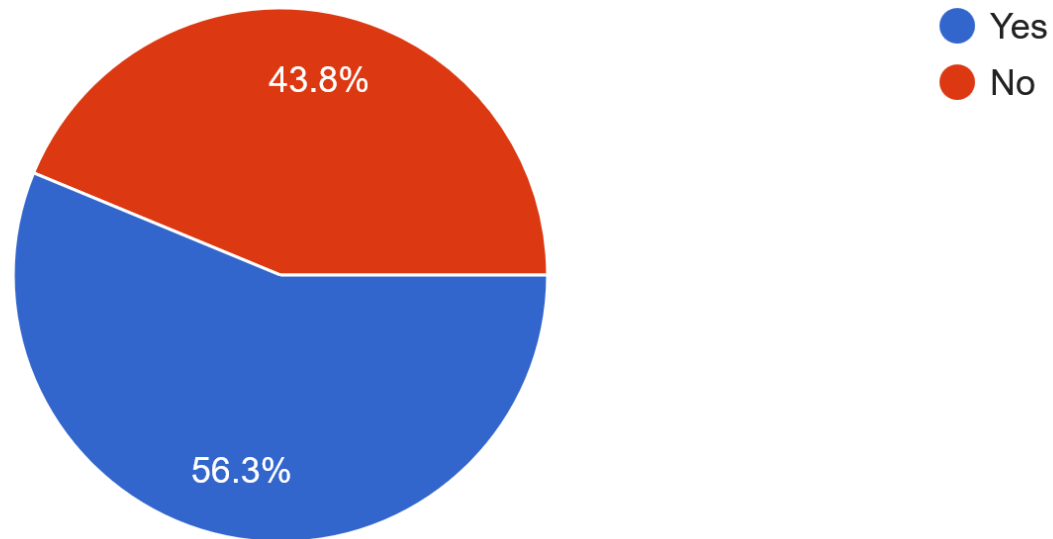

- Yes
- No
- The nearest water tank is far away from my plot
- The water tank nearest my plot is too slow to fill

Water Survey Results - 2

Should there be more Water Tanks on the Allotment Site

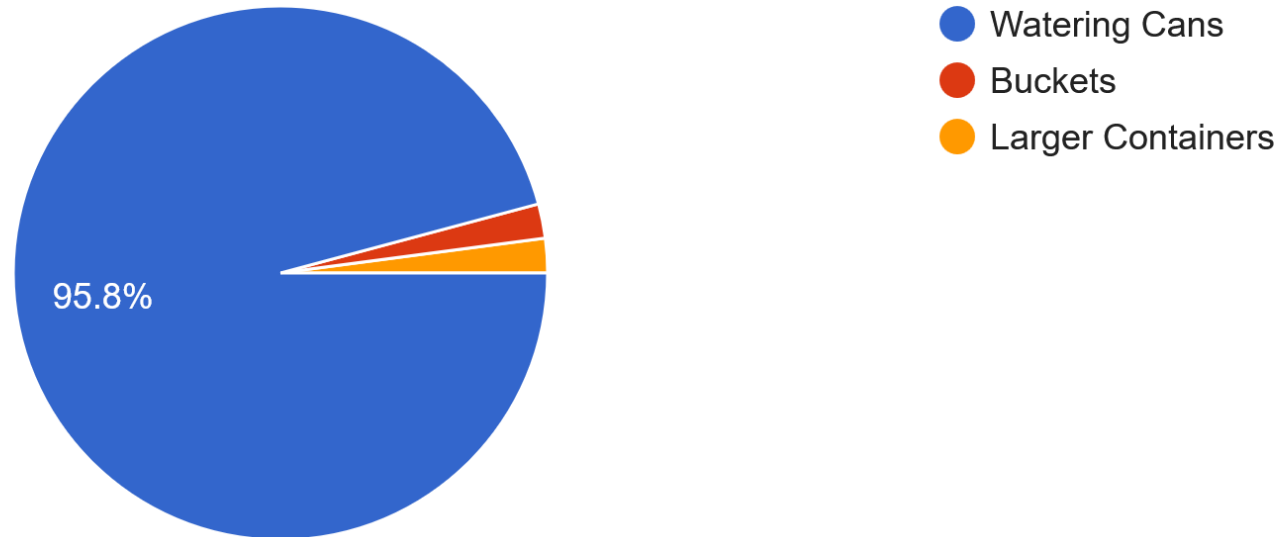

96 responses

Water Survey Results - 3

What do you use to carry water from the tank to your plot?

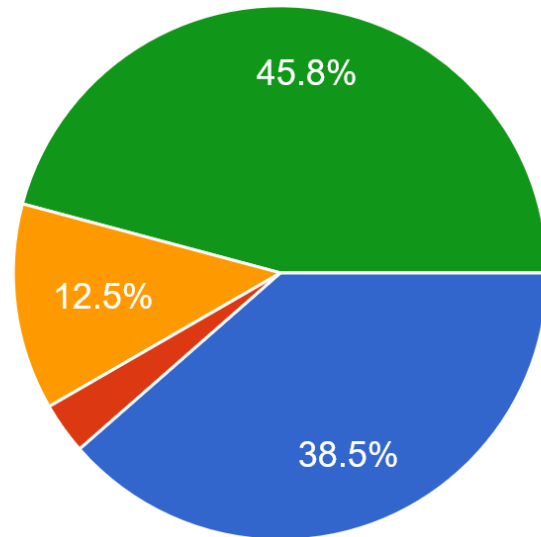

96 responses

Water Survey Results - 4

What time of the day do you water your plot

96 responses

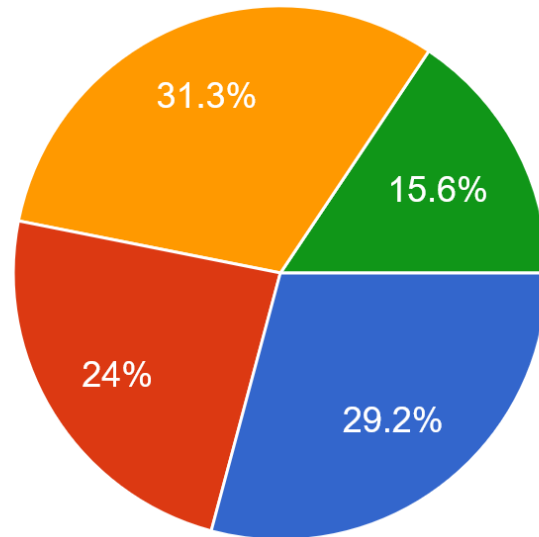

- Early Morning - 6am - 10am
- Mid Day - 10am - 2pm
- Late Afternoon - 2pm - 6pm
- Evening Time - 6pm - 9pm

Water Survey Results - 5

How can the Allotment site Water Resources be better prepared for 2027

96 responses

- Add more Water Tanks around the site (which may reduce overall pressure)
- Replace existing Water Tanks with larger ones
- Install rainfall capture tanks based on IBC's around the site
- Encourage tenants with sheds and greenhouses to use water butts
