

WATA COMMITTEE MEETING

BULLET POINTS

Thursday 10th September

Agenda details

I. UP FOR DISCUSSION

a. The Bank Holiday skips.

- This year the May Bank Holiday skips, provided by WTC were by the community hub, as in previous years. The August Bank Holiday skips were by the back gate. The decision was made to move the August skips to make access fairer to tenants across the whole site. Had the WTC budget allowed the third lot of skips would have been by the main gate. Moving forward the August skips will be by the back gate.

b. The e-shop.

- The closing date for fruit bush orders is the end of September. Any surplus fruit bushes will be available to buy through the e-shop which should be up and running shortly. More information will be provided once tenants receive their orders and we know how many we have left.

c. Launchpad.

- Corporates will have been on site for 3.5 days in September and there are 2 days booked in October. The plot is looking well and the corporates we've had this year have all worked hard. Any tenant that wants to help with Launchpad should contact Teresa via email, Teresa.buley@woodley-allotments.org.uk or catch her on her plot E18.

d. Waste management.

- The committee is still in talks with WTC about how we can remove waste from the site. We have several ideas, but it will need some financial backing from WTC.

e. Upcoming visit by Jack the Scrap.

- Once the inspections are finished, we'll organise a visit by Jack the Scrap to remove metal from the site. If you have any unwanted metal on your plot leave it at the front as we'll get him to go up and down the rows collecting as he goes.

f. Monday night meeting

- There will be a Monday night meeting on 19th October at 7.30pm. Steve Cook, one of our beekeepers will be speaking about how the bees have coped during the extreme weather.
- The December meeting (14th) will take the form of a quiz with mulled wine and mince pies.
