

Plot E13 – Shed Asbestos Removal

Following several months of investigation, Reading Borough Council, which owns the Reading Road Allotments site, has agreed to arrange for the removal of an asbestos shed located on Plot E13.

A specialist team of contractors will carry out the work on behalf of Reading Borough Council on the morning of Monday 7 December 2026. The work is expected to start early in the morning and be completed by approximately 1.00 pm.

To ensure the safety of all tenants with plots in the vicinity of Plot E13, certain sections of the site roadways will need to be closed for the duration of the work. The following sections will be affected:

- **Row E/F roadway:** From Plots E19/F19 to the end of Row E/F.
- **Row C/D roadway:** From Plots C19/D19 to the end of Row C/D.

This means that tenants with plots within the affected areas will be unable to access their plots, even on foot, while the asbestos removal work is taking place.

Appropriate signage and barrier tape will be put in place to clearly identify the restricted areas. Once the Committee has been notified that the asbestos removal work has been completed and the area has been confirmed as safe, tenants will be able to access their plots again.

We apologise for any inconvenience caused by this essential work. These safety measures are necessary to protect all tenants and ensure that our contractors can complete the work safely and without delay.

Once the work has been completed, the plot will be available to be let to a new tenant from the waiting list.

A map showing the affected plots and the areas that will be closed for the duration of the work is included on the following page.

If you have any questions regarding this Special Bulletin, please don't hesitate to contact us on the normal email of readingroadplots@woodley-allotments.org.uk.

Many thanks &
Kind Regards
Mike McNamara – Chair
Woodley Allotments Tenants Association at Reading Road
